

Manufacturer and supplier of traditional and environmentally-friendly building materials.

## 1. Identification of the substance and the Company

**Chemical Name:** Aqueous suspension of Calcium hydroxide.

**REACH Pre-registration Number:** 17-2119410150-64-0000 (calcium hydroxide)

**Uses of the Chemical:** Information currently being collected and evaluated by SIEF (Substance Information Exchange Forum).

**Trade Name:** Tŷ-Mawr Lime Putty

**Synonyms:** Calcium hydroxide, Slaked lime, Air Lime

**Contained In:** Tŷ-Mawr Premixed Mortars and Plasters, Premixed Lime Hemp Plaster and Tŷ-Mawr Limewash

**Supplier:** Tŷ-Mawr, Unit 12, Brecon Enterprise Park Brecon, Powys, LD3 8BT.

**Emergency Tel:** +44 (0)1874 611350

## 2. Hazards Identification

Xi Irritant

The product can produce severe skin damage (alkaline burns) in humans, especially if prolonged skin contact takes place.

## 3. Composition/Information on Ingredients

**Composition:** Calcium hydroxide,  $\text{Ca(OH)}_2$  10% - 40% (depending on product).

**Safety Phrases:** S2, S25, S26, S37/39 (See Section 16 for full text of phrases)

**Risk Phrases:** R37/38, R41 (See Section 16 for full text of phrases)

**CAS Number:** 1305-62-0 (of active ingredient  $\text{Ca(OH)}_2$ )

**EINECS Number:** 215-137-3 (of active ingredient  $\text{Ca(OH)}_2$ )

## 4. First-aid Measures

**Inhalation:** Not applicable.

**Skin Contact:** Remove from exposure. Wash affected area immediately with plenty of water for at least 15 to 20 minutes. Remove contaminated clothing. Seek medical attention if exposed area is large or if irritation persists. The product can produce severe skin damage (alkaline burns) in humans, especially if prolonged skin contact takes place.

**Eye Contact:** SPEED IS ESSENTIAL. Remove from exposure. Irrigate immediately with plenty of water for at least 15-20 minutes. Seek medical attention as soon as possible. May cause serious damage to eyes if left untreated.

**Ingestion:** Remove from exposure. Wash mouth with water and drink plenty of water. Do not induce vomiting. Seek medical attention as soon as possible. May irritate gastrointestinal tract.

**General:** No known delayed effects. Seek medical attention. Ensure that eyewash/shower facilities are available.

## 5. Fire-Fighting Measures

Non flammable and Non combustible.

**Extinguishing Media:** The product does not burn. Use Powder, Foam or  $\text{CO}_2$  type extinguisher.

**General:** When heated above  $580^\circ\text{C}$ , calcium hydroxide decomposes to produce calcium oxide and water. Calcium oxide reacts with water and generates heat. This may cause risks to flammable materials.

## 6. Accidental Release Measures

**Personal Precautions:** Avoid contact with skin and eyes.

**Environmental Precautions:** Contain spillage. Avoid contamination of drains and watercourses.

**Cleaning Methods:** Contain spillage and absorb using earth or sand. Spillage into watercourses must be alerted to the Environment Agency and/or other appropriate regulatory bodies.

## 7. Handling and Storage

**Handling:** Avoid contact with skin and eyes. (Workplace Exposure Limit (WEL): 5 mg.m<sup>-3</sup>, (8hr TWA) of active ingredient  $\text{Ca(OH)}_2$ ).

**Storage:** Store in a cool environment. Bulk storage should be in a purpose-built silo / tanks. Keep away from acids nitro compounds. Keep out of reach of children. Do not use aluminium for transport or storage.

## 8. Exposure Controls/Personal Protection

**Exposure Limit Values:** Workplace Exposure Limit (WEL), 5mg.m<sup>-3</sup>, (8hr TWA) of active ingredient  $\text{Ca(OH)}_2$

**Occupational Exposure Controls:** Not applicable.

**Individual Protection Measures:**

**Respiratory Protection:** Wear suitable respiratory protection that will afford adequate protection.

**Hand Protection:** Wear suitable gloves that will afford adequate protection.

**Eye Protection:** Wear suitable eye protection (safety glasses/safety goggles/face shield) that will afford adequate protection.

**Clothing:** Wear suitable overalls and safety footwear that will afford adequate protection.

**Environmental Exposure Controls:** Not applicable.

## 9. Physical and Chemical Properties

**General Information:**

**Appearance:** Creamy viscous paste

**Odour:** Slight earthy odour Important Health, Safety &

**Environmental Information:**

**pH:** Aqueous suspensions are alkaline, pH 12.4, saturated solution at  $25^\circ\text{C}$  Solubility in water: 1850mg/l at  $0^\circ\text{C}$ , 1650mg/l at  $20^\circ\text{C}$ , 770mg/l at  $100^\circ\text{C}$  for active ingredient  $\text{Ca(OH)}_2$

Manufacturer and supplier of traditional and environmentally-friendly building materials.

**Melting Point:** For active ingredient  $\text{Ca(OH)}_2$  decomposes at  $580^\circ\text{C}$  to form calcium oxide (quicklime)

**Boiling Point:** Not applicable

**Specific Gravity:**  $2.24\text{g/cm}^3$  at  $20^\circ\text{C}$  for active ingredient  $\text{Ca(OH)}_2$

**Bulk Density and Viscosity:** Depends on the dry matter content of the active ingredient  $\text{Ca(OH)}_2$

**Vapour Pressure:** Non volatile

**Partition Coefficient:** Not applicable

**Flash Point:** Not applicable

**Flammability:** Not flammable

**Explosive Properties:** Not flammable

## 10. Stability and Reactivity

**Long term Stability:** Stable

**Conditions to Avoid:** Avoid exposure to air to minimise degradation (carbonation). When heated above  $580^\circ\text{C}$ , calcium hydroxide decomposes to produce calcium oxide and water.

**Materials to Avoid:** The active substance  $\text{Ca(OH)}_2$  reacts with carbon dioxide to form calcium carbonate.  $\text{Ca(OH)}_2$  reacts with acids to form calcium salts.  $\text{Ca(OH)}_2$  reacts with aluminium and brass, under formation (or release) of hydrogen gas.

**Hazardous Decomposition Products:** Calcium oxide absorbs moisture and carbon dioxide from air to form calcium carbonate, which is a common material in nature.

## 11. Toxicological Information

### Inhalation

**Acute Effect:** Irritant.

**Long Term Exposure:** High concentration of mist may be irritant to respiratory tract.

### Ingestion

**Acute Effect:** Calcium hydroxide is not toxic.

**Long Term Exposure:** May cause irritation to the gastrointestinal tract.

### Skin Contact

**Acute Effect:** Irritant.

**Long Term Exposure:** The product can produce severe skin damage (alkaline burns) in humans, especially if prolonged skin contact takes place.

### Eye Contact

**Acute Effect:** Painful irritant.

**Long Term Exposure:** Risk of severe and/or permanent damage to eyes.

## 12. Ecological Information

**Ecotoxicity:** The product is considered to be non toxic.  $\text{LC}_{50}$  aquatic toxicity values are  $> 100\text{ mg/l}$ . High concentrations ( $> 100\text{ mg/l}$ ) may have a sterilising effect in sewage works. Product is extensively used in treatment of acid wastes and

sewage sludges.

**Mobility:** Sparingly soluble in water (as calcium hydroxide) to form alkaline solution. Low mobility in most ground conditions.

**Persistence and Degradability:** Not relevant for inorganic substances.

**Bioaccumulative Potential:** Not relevant for inorganic substances.

## 13. Disposal Considerations

Disposal should be in accordance with local and national legislation.

## 14. Transport Information

**UN Number:** Not classified.

**Classification:** Not classified as hazardous for transport.

IMDG/GGVSea (Sea) Classification: Not subject to identification.

**ADR (Road) Classification:** Not subject to identification.

**RID (Rail) Classification:** Not subject to identification.

ICAO/IATA (Air) Classification: Not subject to identification.

## 15. Regulatory Information

Labelling according to EEC-directives: Symbol and classification of the substance according to directive 67/548/EEC: Xi Irritant

## 16. Other Information

### Risk Phrases:

R37/38 Irritating to respiratory system and skin.

R41 Risk of serious damage to the eyes.

### Safety Phrases:

S2 Keep out of reach of children.

S25 Avoid contact with eyes.

S26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

S37/39 Wear suitable gloves and eye / face protection.

**Further Information:** The information contained therein is based on the state of our knowledge regarding the product, at the mentioned date. They are provided in good faith. It does not exempt the user from knowing and applying all texts regulating his activity. It will be his sole responsibility to take all necessary precautions when using the products.

**Guidance & References:** This Safety Data Sheet has been prepared generally in accordance with the European REACH regulations (REGULATION (EC) No 1907/2006, Annex II) and Directive 98/24/EC.

**Revision:** The present version is a renewal version, in order to be in accordance with the Annex II of the REACH Regulation (EC) 1907/2006.
